SHANGHAI NNW NEW MATERIALS TECHNOLOGY CO., LTD.
ROOM 402, BUILDING17, LANE 268, LINGXIN ROAD, CHANGNING DISTRICT SHANGHAI, CHINA

The following sample/information of the product was submitted and identified by the client as
WHITEBOARD INK (1 formulation and 11 additional colors).

Net Weight/Volume : 3.0 g /pc/color
Region of Origin : China
Region of Destination : USA
Job Receiving Date : Mar. 27, 2025
Report Preparation Period : Mar. 27~ Apr. 3, 2025

Service Requested

Toxicological Risk Assessment (TRA) for the said product.

Results

Please refer to the following pages.

Conclusion

Please refer to *Section IV: CONCLUSIONS*.

TOXICOLOGICAL RISK ASSESSMENT

The aim of this report is to assess the safety of the formulation of WHITEBOARD INK – Ink in 12 Assorted Colors(Black, Red, Blue, Green, Rose Red, Pink, Glass Green, Sky Blue, Coffee, Yellow, Purple, Orange) under normal and reasonable foreseeable conditions of use. The formulation is intended to be preloaded in pen for writing and coloring by the population of 6 years old and above.

The risk assessment takes account of:

Skin irritation
Eye irritation
Strong sensitization
Oral toxicity
Inhalation toxicity

The followings were considered in this toxicological assessment for all ingredients and the finished product:

Ingredient toxicological profile
Potential ingredient interaction
Consumer exposure scenario

Section I. FORMULATION REVIEW

According to the client's needs and to protect business secrecy, detailed formulation is NOT presented in this report, whereas they are recorded in the SGS Archives. In case of medical events, it is the client's responsibility to provide the formulation to a patient's physician, or SGS upon request may furnish relevant medical units, on a confidential basis, with information necessary to diagnose or treat cases of exposure without prior written authorization.

No allergenic fragrance has been indicated to be present in the formulation.

Section II. CONSUMER HEALTH RISK ASSESSMENT

Afore-mentioned formulation has been reviewed for safety at the basis of the following assumptions.

Exposure assessment

The following assumptions have been made for assessment of exposure:

- Product category: ink;
- Physical form: liquid;
- Intended use (suggested use): preloaded in pen for writing and coloring;
- Accessibility: this product may contact the consumer directly in case of accidental exposure;
- Exposure route(s): primarily via dermal contact, potentially eye contact;
- Default body weight: 21.7 kg (child), 60 kg (adult);
- Target population: the population of 6 years old and above.

Section III. RISK EVALUATION

The submitted formulation is intended to be preloaded in pen for writing and coloring. It is classified as "Causes skin irritation" and "Causes serious eye irritation" for color of Pink; however, the design and way-of-use of the product does not encourage a direct contact of the skin/eye or oral ingestion. As for the formulation of other colors, it is not expected to produce skin/eye irritation. Moreover, the formulation is not expected to cause skin sensitization in the majority of consumers. Furthermore, the amount of the ingredients contained in the products does not contain any material in quantity sufficient enough to cause chronic toxicity among users, when used for its intended purpose.

Section IV. CONCLUSION

The submitted formulation is not expected to cause acute or chronic skin and eye irritation, acute or chronic oral, dermal or inhalation toxicity or be a strong sensitizer as defined in 16 CFR 1500.3(c)(4), 1500.3(c)(2), 1500.3(c)(3) and 1500.3(c)(5) provided the manufacturer's instructions are followed. Taking into account the way the product is used, in the present state of knowledge, it is estimated that

under normal condition of use, this product is unlikely to constitute significant health risks to the consumers. However, to avoid misuse/abuse of this product, below WARNING statement is recommended to minimize the risks.

Recommended Safety Labeling:

Contains: Polyvinylbutyral (CAS RN 63148-65-2), Pigment red122 (CAS RN 16043-40-6)

WARNING: CAUSES SKIN IRRITATION. CAUSES SERIOUS EYE IRRITATION. (For pink color only)

Rinse off immediately in case of accidental skin/oral/eye exposure

Use under adult supervision.

The assessment is valid under the following conditions:

1. Potential physical, mechanical electrical and microbiological risks of the product have not been assessed or evaluated.
2. The formulation, description and other supporting documents of the product were assumed to be valid and accurate.
3. It was assumed that, neither the ingredients, nor the finished product contain contaminants or residues, which could cause adverse effect to a consumer who may be exposed, above the level set in the applicable legislation.
4. The risk evaluation can solely be applied to and is appropriate for, the product described above under the stated conditions. Modification of any components of the finished product, such as net weight, adjustment of ingredient concentrations, would require re-evaluation.
5. Heavy metal contents in the product were not assessed and evaluated.
6. This product has been assessed for compliance only with the regulation(s) specified herein.
7. In case of consumer's adverse reaction from using this formulation, the undersigned should be informed so that the formulation can be further reviewed.
8. This product has been evaluated for human health only, environmental concern/eco-toxicity were not assessed in this report.
9. The assessment is performed by using in-house method, to consumer product exposure database, public information and literature data available at the time of this assessment.

The validity of this review depends on accurate disclosure by both the manufacturer(s) of the components and of the finished products. Best professional capabilities are used in performing this review. If client wishes to use this opinion with any alterations to the submitted formula, SGS-CSTC Standards Technical Services (Shanghai) Co., Ltd. or any of its employees will not be held liable for any injury or damage resulting from this product. A review of this assessment should be programmed at regular and frequent intervals (upon reformulation of the components or the finished products or upon any change to health and safety regulations).

information and the validity of the results and / or conclusions arising therefrom. Testing results only apply to the sample as received.

2. The declaration of conformity is based on acceptance limits chosen based on simple acceptance ($w = 0$, $AL = TL$).

Statements of conformity are reported as:

Passed - The measured values were observed in tolerance at the points tested.

Failed - One or more measured values were observed out of tolerance at the points tested.

3. The testing was carried out by external laboratory assessed as competent.
